

Hudsonville Band Boosters

Scrip program

With the Hudsonville Band Boosters Scrip program you can automatically add money into your students band account just by ordering gift cards. The amount deposited into your account depends on the merchant, but with each purchase you can receive money for just using the program. This program is a great way to make band more affordable for your family. Scrip does take a little effort, but how can you turn down free money.

How it works:

- You buy gift cards from Scrip
- Vendors contribute a percent of that purchase to the Band Boosters.
- Band Boosters then puts that money into your students band account.
- Orders placed by Monday at midnight can be picked up at the Avon Store. (Rachael will email you when they are in, which is usually Friday)

For example, if your family buys \$100 of gas each week, by using the reload-able scrip meijer card (3%), you could be adding \$156 per year into your students band account. Now add on your grocery shopping, back to school shopping, eating out, vacations... you can see how it adds up fast!

Please note it is highly recommended that all orders be paid with through PrestoPay.

It does cost .15 per transaction, but that small fee is well worth it. That way you can take advantage of Scrip Now & Scrip Reload without having to drive to the Avon store and pay Rachael first. You will be surprised how many times you might be at a store or restaurant and will have wished you had a scrip card.

Sign up is as easy as completing the following steps:
